GLOW-IN-THE-DARK

FIRST AID KITS

**Could you find
your First Aid
Kit in the dark?**

The loss of illumination during an emergency can cause panic and confusion, especially if someone is injured and needs assistance.

The NEW **GLOW-IN-THE-DARK** First Aid Kits can help you to locate and identify your first aid equipment and protect your workforce in the event of a power failure.

GLOW IN THE DARK

FIRST AID KITS

The **GLOW-IN-THE-DARK** First Aid Kits and their contents are compliant with the latest British Standard BS85991: 2019, and they reflect the most up-to-date changes in workplace practice, making them demonstrably more 'fit for purpose' in today's environment. The colour-coded safety clips keep the cases tightly shut, creating an airtight, dustproof, and water-resistant environment for the sterile contents. The wall mounting bracket is included so the kit can be placed somewhere easily accessible and highly visible for low light emergencies.
