Setting the standard.

* Excludes product and packaging.

aura³: the right kit for the road.

BS8599-1:2019, BS8599-2:2014 COMPLIANT WORKPLACE FIRST AID KITS

Our New Aura3 BS8599-1:2019 kits are better for the workplace and better for the planet, providing quick and easy access to first aid, fully compliant with the latest standard requirements. Aura3 represents a first for the first aid industry, the first 100% recycled and fully recyclable first aid kit box on the market.

The fresh new box design feature colour coded, embossed, and screen-printed lids. The new graphics stand out from a distance, enabling quick identification in an emergency, especially in a busy workplace. Compact and convenient, the integral bracket allows easy placement and fixing.

Using the latest data, (including accident and research statistics used in F1 racing car design), Industrial and Medical Professionals have produced a new standard to meet the medical needs of road traffic victims during the critical period prior to the arrival of the Emergency Services. Components have been specifically selected for ease of use, and for coping with both minor and major road traffic accident injuries, without the need for special training.

Integral bracket

Single clip

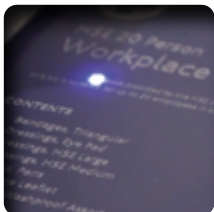

Embossed cross

Easy identification

Tamper seal

Laser etching

Better for the workplace, better for the planet.

REV150223

What does the law say?

The Health and Safety (First Aid) regulations 1981 states:

“An employer shall provide or ensure that there are provided such equipment and facilities as are adequate and appropriate in the circumstances for enabling first aid to be rendered to his employees if they are injured or become ill at work”

To account for various types of vehicle and passenger carrying capability, the BS8599-2 kit is available in three sizes. Whether a motorcycle, bus, van, or double decker bus, there is a suitable kit. The size and the quantity of kits for any vehicle is determined by the vehicle type and passenger numbers.

MEDIUM VEHICLE FIRST AID KIT BS8599-2 COMPLIANT

For car, taxi, van,
and truck.

(maximum 8 passengers)

LARGE VEHICLE FIRST AID KIT BS8599-2 COMPLIANT

For minibus,
bus, and coach.

(maximum 16 passengers,
larger passenger vehicles
will require multiple kits to suit)

Staff working remotely from a company vehicle should be equipped with a travel and motoring first aid kit. This does not supersede BS8599-2 for vehicle first aid kits, employers should refer to BS8599-2 when equipping vehicles with first aid kits.

BS8599-2:2014 VEHICLE FIRST AID KITS IN AURA3 BOX
