aura³ the right kit for your kitchen.

BS8599-1:2019 COMPLIANT WORKPLACE FIRST AID KITS

Our New Aura3 BS8599-1:2019 kits are better for the workplace and better for the planet, providing quick and easy access to first aid, fully compliant with the latest standard requirements. Aura3 represents a first for the first aid industry, the first 100% recycled and fully recyclable first aid kit box on the market.

The fresh new box design feature colour coded, embossed, and screen-printed lids. The new graphics stand out from a distance, enabling quick identification in an emergency, especially in a busy workplace. Compact and convenient, the integral bracket allows easy placement and fixing.

British Standard compliant first aid kits reflect the most up-to-date changes in both workplace practice and risks, making them demonstrably more 'fit for purpose' in today's environment.

The quantities and sizes of first aid kits to be used in a workplace environment should be determined by the number of people on site and the category of hazard they are exposed to.

Integral bracket

Single clip

Embossed cross

Easy identification

Tamper seal

Laser etching

Better for the workplace, better for the planet.

'Leading First Aid'

REV150223

What does the law say?

The Health and Safety (First Aid) regulations 1981 states:

“An employer shall provide or ensure that there are provided such equipment and facilities as are adequate and appropriate in the circumstances for enabling first aid to be rendered to his employees if they are injured or become ill at work”

The following information categorises workplaces by level of risk, and then recommends an appropriate size of kit, depending on the number of employees and members of the public exposed to those risks.

1. DO A RISK ASSESSMENT.

LOW RISK: (e.g. shops, offices, libraries etc.)

HIGH RISK: (e.g. light engineering and assembly work, food processing, warehousing, etc.)

2. DECIDE ON THE SIZE AND QUANTITY OF KITS REQUIRED TO MEET YOUR RISK NEEDS ASSESSMENT.

SMALL KIT USAGE GUIDELINES

LOW RISK: 1 kit for less than 25 employees

HIGH RISK: 1 kit for less than 5 employees

MEDIUM KIT USAGE GUIDELINES

LOW RISK: 1 kit per 25-100 employees

HIGH RISK: 1 kit per 5-25 employees

LARGE KIT USAGE GUIDELINES

LOW RISK: 1 kit per 100 employees

HIGH RISK: 1 kit per 25 employees

TRAVEL AND MOTORING

Staff working remotely from a company vehicle should be equipped with a travel and motoring first aid kit. This does not supersede BS8599-2 for vehicle first aid kits, employers should refer to BS8599-2 when equipping vehicles with first aid kits.

1 Medium Kit

	427 SMALL	428 MEDIUM	429 LARGE
Blue Bandage, Conforming	1	2	2
Blue Bandage, Triangular	2	3	4
Dressing, Burn ³	1	2	2
Blue Dressing, Eye Pad	2	3	4
Blue Dressing, Finger	2	3	4
Blue Dressing, Sterile, Large	2	3	4
Blue Dressing, Sterile, Medium	2	4	6
Foil Blanket	1	2	3
Blue Gloves, Nitrile (Pairs)	6	9	12
Guidance Leaflet	1	1	1
Blue Plasters, Washproof, Assorted	40	60	100
Resuscitation Face Shield ²	1	1	2
Shears	1	1	1
Blue Tape, Microporous	1	2	3
Blue Wipes	20	30	40

² The shield is used to protect a first-aidler from infection from a casualty during mouth-to-mouth resuscitation. ³ A Burn Dressing cools the burn injury without any prior treatment with water or any other medium. The dressing does not dry out within one hour of application.

For many years it has been best practice to use blue detectable plasters in food preparation areas. Our kits far exceed this requirement by providing you for the first time with a kit where the majority of products, including dressings and wipes, are blue. With one of our all blue Catering Kits in your workplace, there is no better way to demonstrate to the authorities that you are taking your responsibilities seriously.

BS8599-1:2019 CATERING

427 BS8599-1:2019 SMALL CATERING KIT
in Small Green Aura3 Box
SIZE: 21cmH x 23.5cmW x 10cmD
UNIT: 1
MOQ: 10

428 BS8599-1:2019 MEDIUM CATERING KIT
in Medium Green Aura3 Box
SIZE: 25.5cmH x 28cmW x 10cmD
UNIT: 1
MOQ: 10

429 BS8599-1:2019 LARGE CATERING KIT
